415.352.2701 Bullivant Houser Bailey's San Francisco office reflects the powerful influences that have shaped the City's business climate. Bullivant traces its history in San Francisco to 1906, when Derby, Cook, Quinby & Tweedt relocated their offices from Hawaii. After Bullivant opened its San Francisco office in 1998, the two firms merged in 2000, building upon the success of their insurance, admiralty and transportation practices. Today, the office represents a diversified mix of practices, including commercial and casualty litigation, ERISA, and intellectual property, along with its traditional insurance coverage, maritime and transportation practices. Our lawyers work with clients in many sectors, including insurance, real estate, shipping and logistics, pension trust funds and manufacturing.
