ALEXANDER A. JURISCH

Associate

D 206 521 6464 E alex.jurisch@bullivant.com

Alex Jurisch defends insurers in high-value insurance coverage cases involving significant construction defect and business interruption claims. He has worked on both class actions and multidistrict litigation. Alex's scientific background, including working as a research scientist at a small biotech company for more than five years, offers his clients a competitive advantage when complex medical, regulatory and legal matters intersect. He has a better understanding of technical issues presented by experts and asks smarter questions to evaluate arguments.

Given his research and document review background, Alex is skilled at quickly finding the relevant information and identifying the important areas of focus. He's also not afraid of doing the math and brings a more analytical mindset instilled through his technical experience. Alex is proactive in making sure all bases are covered, requesting all the information needed from the start, and ensuring all of his client's questions are answered.

During law school, Alex especially enjoyed moot court competitions, which led him to pursue a career as a litigator. He also served as Associate Editor of the Seattle University Law Review and President of the Intellectual Property Law Society.

PRACTICE AREAS

Insurance Coverage
Personal & Catastrophic Injury Litigation

EDUCATION

- Seattle University, School of Law - J.D., magna cum laude, 2017
